SAP Inhouse Consultant Supply Chain Management

SAP Inhouse Consultant Supply Chain Management (all gender)

KWS Saat SE & Co. KGaA, 37574 Einbeck

(all gender)

Join us in shaping electronic data exchange in seed production! We invite you to apply for the position as SAP Inhouse Consultant (all gender) Supply Chain Management at KWS SAAT SE & Co. KGaA – a renowned, family-owned seed production company dedicated to global food supply.

In this dynamic role, you are not just part of a team – you are the driving force as our SAP expert, shaping the landscape of global logistics processes such as Order-to-Cash (OtC) and Purchase-to-Pay (PtP). Your journey with us includes leading or supporting international SAP projects and coordinating Application Support.

Whether you choose our headquarters in Einbeck (near Göttingen/Hannover) or our growing location in Berlin – our offer of remote work within Germany, in coordination with the team, ensures flexibility. A prompt start is possible, and the contract is unlimited. We offer the position full-time, but we are also open to a reduced working time of at least 30 hours.

Our SAP Inhouse Consultant (all gender) Supply Chain Management includes the following responsibilities:

- Ensuring and delivering expertise and specific cloud solutions in SAP S4/HANA and ECC in B2B processes OtC and PtP.
- Consulting on the optimization and automatization of the above-mentioned supply chain processes.
- Coordinating interface and integration issues in the cloud environment.
- Project management and project support.
- Coordinating external service providers for SAP application development and customization.
- Managing external Application Support as a Change Manager (all gender).

SAP Inhouse Consultant Supply Chain Management (all gender)

KWS Saat SE & Co. KGaA, 37574 Einbeck

What you should bring:

- Relevant professional experience in SAP Project Management, SAP Consultancy, or technically inclined SAP Key User role in the logistics application area.
- Proven knowledge in the configuration/customization module SD for S4/HANA/ECC.
- Project experience in B2B topics, including independent and proactive work.
Curiosity and enjoyment of learning new things, as KWS is eager to be a pioneer in testing new features and tools.
- Good communication and organizational skills to coordinate internally & externally with various stakeholders and not lose sight of project plans.
- Very good English skills in both written and spoken communication, as we need to interact with different countries as a global department.

We would be delighted if you also bring the following or are willing to learn:

- SAP MM, SD, WM & TM knowledge.
- Basic knowledge of EDI solutions.
- German language skills.

KWS can offer you a lot, including:

- **A great team:** Our SAP Inhouse Consultant team consists of people with different experiences and nationalities who form a stable community through proactive collaboration. You can expect a modern working environment and virtual teamwork.
- **Pleasant working environment:** As a family-owned company, we live by the values of proximity, reliability, foresight, and independence – a culture that is also practiced, such as through an open and friendly work atmosphere.
- **Attractive working hours:** Remote work and flexible working hours without a core working time.
- **"Make yourself grow":** Individual support through diverse training opportunities and regular training via SAP Learning Hub, as well as internal exchange and external offerings.

SAP Inhouse Consultant Supply Chain Management (all gender)

KWS Saat SE & Co. KGaA, 37574 Einbeck

- **Adequate compensation:** Collective remuneration, annual success participation, vacation and Christmas bonuses, employer-financed company pension, capital-forming benefits, 30 days of annual leave, childcare allowance, preference shares.
- **Extra:** Health and safety are important to us, and we ensure this with our company doctor, company fire brigade/paramedics (with time credit), and company sports.

Sow the future of modern agriculture with us and lay the foundations through modern technology in the seed production process and seed quality management.

If you know anyone in your network suitable for this job, please forward the advertisement to them!
